

Specification and Technical Information

BEIGE GASTON

Material Type: Limestone

Available Sizes: *Contact us*

Thickness: *Contact us*

Finishes: Polished, Honed, Flamed, Brushed

Technical Features	Standard Test	Performance	
Water Absortion	EN 13755	Mean Value = 3,10 %	
Flexural Strength	EN 12372	Mean Value = 10.6 %	
		Lower Expected Value = 9,3 Mpa	
Slip Resistance	EN 14231	Dry Conditions	Mean Value = 66 SVR
			Lower Expected Value = NDR SRV
		Wet Conditions	Mean Value = 75 SRV
		Lower Expected Value = NDR SRV	
Durability - Frost Resistance	EN 12374	Flexural Strength: Average value before ice test = 10,6 Mpa	
		Flexural Strength: Average value before ice test = 9,0 Mpa	
		Number of Ice Cycles = 48	
Abrasion	EN 14157	Mean Value = 26	
Shock Resistance	EN 14066	Mean Change in mass = 0.07 %	
		Flexural resistance = 15,8 %	
		Number of cycles = 20
