

Specification and Technical Information

**STRATUS WHITE**

**Material Type:** Marble

**Available Sizes:** *Contact us*

**Thickness:** *Contact us*

**Finishes:** Polished, Honed, Brushed, Flamed

Availability Classification:	Marble
Availability:	Good
Average block dimensions:	Medium/Large
Main application:	Inside/Outside
Slab variation coefficient:	Limited
Compression tensile strength:	1426 kg/cm <sup>2</sup>
Tensile strength after freeze-thaw cycles:	1338 kg/cm <sup>2</sup>
Unitary modulus of bending tensile strength:	192 kg/cm <sup>2</sup>
Heat expansion coefficient:	0,0052 mm/m°C
Water imbibition coefficient:	0,002400
Impact strength:	82 cm
Frictional wear:	3,64 mm
Mass by unit of volume:	2680 kg/m <sup>3</sup>
